## Fiscal Analysis

### ASSUMPTIONS:

1. This bill does not apply to permits issued prior to the effective date of the bill.
2. DEQ completes an average of 2 to 3 EISs per year. Other agencies may complete more.
3. Many of the types of projects this would apply to already have annual reporting requirements that overlap the requirements of this bill.
4. Agencies may codify this requirement into a rule requiring the “permittee” to annually submit the information required by the this bill in an electronic format compatible for agency loading onto the web page.

(continued)

5. The agencies would then develop and distribute guidelines for electronic submittal.
6. Therefore, the costs of developing and distributing guidelines and loading this information onto the web page will be minimal and can be absorbed by the agency.

FISCAL IMPACT:

The costs of complying with this bill would be absorbed by DEQ, pursuant to Assumptions #4, 5 and 6.

TECHNICAL NOTES:

1. The term “assess” in New Section. Section 1(2) means access.
